23-25 MAY 2006

SAN JOSE, CA

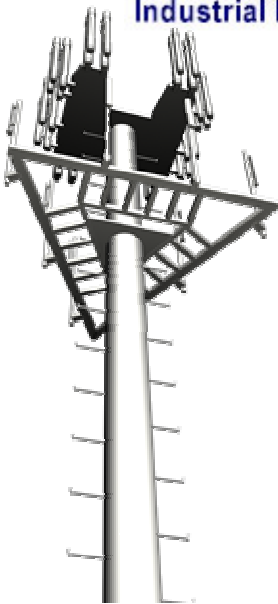

Industrial R&D Alliance for Business

Annual Global B3G/4G Summit

Doubletree Hotel San Jose, May 23-25

Ten Key Reasons Why You Should Attend WWC'2006

- Design the WiMax/B3G converged platform: architecture & engineering
- Join the global industrial alliance to define B3G/4G technologies
- Join forces with our sponsors to deliver the future wireless platform
- Analyze key technologies for emerging markets such as China and India
- Find ways to demonstrate technical and business leadership in the industry
- Develop spectrum sharing and open wireless architecture for ITU Standards
- Look ahead in 4G technology that will alter how we do our 3G/802x business
- Interact more effectively with B3G experts while developing our own expertise
- Explore collaboration across the future wireless and mobile system definitions
- Network and exchange ideas with global colleagues for team building

At WWC'2006, you can experience innovation in action. Whether you're listening to an industry titan at a keynote address, learning about advances in B3G and WiMax at a technical session, or networking with the "Who's Who" at a social activity, you'll know why WWC'2006 is a can't miss event. Visit b3g.org or wireless2020.org to register.

What are you waiting for? It's time to act. Join our industrial R&D alliance to define the future wireless and mobile systems platform.

Technology Get to Silicon Valley
Waits for No One Get to WWC'2006
